Subject: REQUESTING THE APPROVAL TO REFILL FIRE EXTINGUISHERS

Dear GM,

I am writing to request your approval to refill fire extinguishers. As per standard, fire extinguishers should be refilled every six months. The last refill was completed in May 2024, the next refill is due this November.

To maintain safe production performance, especially in underground operations where electricity is among the top five hazards identified at Musha Mines, it is essential to ensure that all fire extinguishers remain in valid working condition.

Thank you for considering this request.

Best regards!
