Product(s) or service(s) required	Upgrade Trinity Nyakabingo Mine Internet Bandwidth from 30 Mbps to 50 Mbps on MTN Broadband
Background information	<p>In January 2024, Trinity Nyakabingo Mine contracted MTN Rwanda to provide a 30 Mbps broadband connection to facilitate the organization's growing internet needs. This capacity initially met the requirements for operational efficiency. However, over time, the organization has experienced significant changes:</p> <ol style="list-style-type: none"> 1. Increased Users and Devices: With more staff and devices connected to the network, demand for bandwidth has risen. 2. Adoption of Microsoft Services: Trinity Nyakabingo Mine has integrated Microsoft Office 365 and other cloud-based tools into its daily operations, including Outlook, Teams for communication, and OneDrive for file storage and collaboration. 3. Peak Usage Periods: Bandwidth saturation is evident during peak hours (7:00–10:00 AM) and virtual meetings, leading to delays, dropped connections, and decreased productivity. <p>These challenges necessitate an upgrade to ensure that internet connectivity supports both current and future operational demands efficiently.</p>

Scope of service(s) or product(s) required	<p>The upgrade involves:</p> <ol style="list-style-type: none"> 1. Increased Bandwidth: Expanding the current 30 Mbps to 50 Mbps on MTN Broadband. 2. Service Continuity: Ensuring minimal disruption during the upgrade process. 3. Enhanced Reliability: Improved bandwidth availability to support high-demand activities, such as video conferencing, file sharing, and online collaboration. <p>Monitoring and Support: Ongoing network</p>
