Subject: Request for Purchase of Wayne Gumboots

I hope this email finds you well.

I am writing to request the purchase of new Wayne Gumboots for our workers as it is a stock item. The gumboots that were provided in November last year, supplied by Batta, have deteriorated quickly due to poor quality, making them unsuitable for our underground mining work.

To ensure durability and worker safety, we have previously procured these boots and provided positive feedback. The feedback received confirms that Wayne Gumboots are of excellent quality and highly durable for our working conditions. We are looking to purchase Wayne Gumboots this time. Rutongo has provided one pair, which we issued to a miner for testing.

Recommended Wayne Gumboot Specifications

- Toe cap: Steel toe caps to protect toes from injury
- Sole: Cleated soles to provide slip resistance and soil release
- Upper: PVC uppers to provide flexibility and abrasion resistance
- Midsole: Steel midsole to provide extra support
- Liner: Nylon liner to allow easy cleaning and quick drying
- Toe spring: Optimal toe spring for walking and kneeling

Below is a table detailing the total number of pairs of Wayne Gumboots required for our workers. Additionally, **Rogers Karangwa Bureshyo** has all relevant information on Wayne Company, which will facilitate a quicker procurement process.

NO	SIZE Euro & UK	QUANTITIES (Pairs)
1	No4(37)	10
2	No5(38)	50
3	No6(39)	110
4	No7(41)	470
5	No8(42)	780
6	No9(43)	590
7	No10(44)	280
8	No11(46)	80

9	No12(47)	30
	TOTAL	2400

Please proceed with the necessary arrangements to procure these boots at the earliest convenience. Let me know if you need any further details.

Best regards,

Imanirafasha Esperance
