Re: Request for Transfer of Explosives Stock Due to Expiry Concerns

Dear Honorable Minister,

Trinity Musha Mine is requesting for transfer of its explosives stock to Rutongo Mines Ltd that includes Superpower 25mm- 3,000 kgs and Ammonium Nitrate- 5,100 kgs, which are due to expire soon. These explosives were initially imported for the Trinity Musha Mines site.

At present, we have not yet started the blasting process at the Musha mine, as we are awaiting the completion of the sub-magazine at the Musha mine site. Given the urgency due to the impending expiration of the stock, we kindly request your office's approval to temporarily transfer the explosives stock Superpower 25mm and Ammonium Nitrate to Rutongo Mines for use in ongoing operations. Once the Musha site is operational and the sub-magazine is complete, we will promptly return the stock to the Musha mine site.

We will be grateful for your understanding and support in this matter and would appreciate your prompt response to facilitate the smooth continuation of our operations without any disruption.

Thank you for your consideration.

Kindest regards.
