### EXPRESSION OF INTEREST FOR THE PEER REVIEW OF JORC – COMPLIANT COMPETENT PERSON'S REPORT AND RESOURCE & RESERVE STATEMENT AND DEFINITIVE FEASIBILITY STUDY (DFS) AT TRINITY NYAKABINGO MINE LTD

Trinity Nyakabingo Mine is seeking for a qualified and local Rwandan service provider to undertake an independent **Peer Review of JORC-Compliant Competent Person's Report (CPR)** and accompanying Mineral Resource and Reserve Statement (RR Statement) prepared and compilation and authorship of a **Definitive Feasibility Study (DFS)** for the Nyakabingo Tungsten Mine in Rwanda.

#### Phase 1: Scope of Work for the Peer Review of CPR – JORC:

The scope of the peer review work includes but not limited to the following:

- A comprehensive review of the **Competent Person's Report (CPR)** and the **Resource and Reserve Statement (RR Statement)** prepared in accordance with the **JORC Code (2012 Edition)**.
- Evaluation of the geological models, estimation methodologies, classification, and reporting of Mineral Resources and Ore Reserves.
- Assessment of compliance with the **JORC Code** and industry best practices.
- Identification of any gaps, risks, or areas of improvement in the report or underlying technical work.
- Delivery of a **written peer review report** summarizing findings, professional opinion, and any recommendations for enhancement or clarification.
- Adhering to environmental and social safeguards
- Ensuring worker safety on-site

#### Eligibility and Competency Requirements

Interested parties must:

- Be **recognized Competent Persons** as defined by the **JORC Code (2012 Edition)**.
- Have a **minimum of 10 years of demonstrated experience** in mineral resource and ore reserve estimation and reporting.
- Possess a solid track record of working on peer reviews or audits of JORC-compliant resource/reserve statements.
- Be registered with, or eligible for registration with, a recognized professional organization (e.g., AusIMM, SAIMM, etc.).
- Demonstrate prior experience with **tungsten or similar vein-hosted deposits** is an advantage but not mandatory.

#### Phase 2: Scope of Work for the compilation and authorship of a Definitive Feasibility Study (DFS):

The scope of work includes but not limited to the following:

- **Compile** a comprehensive DFS using existing technical studies and documentation already completed across the following domains:
  - Mineral Processing and Metallurgy
  - Mining (including geotechnical, design, and scheduling)
  - Infrastructure (power, water, access, etc.)
  - Environmental and Social Impact
  - Community Development and Engagement
  - Labor and Human Resources
- **Identify and execute** any **supplementary work or studies** necessary to address gaps or enhance the technical and economic robustness of the DFS.
- **Ensure integration** of all study components into a single, cohesive, and professionally authored DFS document that meets international standards (e.g., JORC-aligned technical disclosure where appropriate).
- **Collaborate** with Trinity's technical teams and relevant third-party consultants to ensure the DFS reflects both operational realities and strategic development goals.
