JOB ADVERTISEMENT

Who we are:

Trinity Nyakabingo Mines Ltd is a Wolfram Mining Company, situated in Shyorongi Sector, Rulindo District, Northern Province.

The Management of Trinity Nyakabingo Mines Ltd informs the public that it is recruiting Competent, Qualified and Experienced Staff for the following various position

LABORATORY GRADUATE TECHNICIAN (1 Position)

Job Title: Laboratory Graduate Technician

Department: Laboratory

Location: Nyakabingo Mines Ltd

Job Grade: C3

Reports To: Laboratory Technician

Job Purpose: To support mineral processing test work and laboratory operations by preparing samples, conducting tests, collecting data, and assisting in the evaluation of mineral processing techniques. This role is designed for recent graduates who are beginning their careers in mineral processing and metallurgy.

Key Responsibilities:

- Conduct sample preparation (crushing, grinding, screening, and splitting) in accordance with standard procedures.
- Assist in mineral processing test work such as gravity separation, flotation, magnetic separation, and leaching.
- Operate and maintain laboratory and pilot-scale equipment under supervision.
- Record, compile, and report test data accurately and in a timely manner.
- Conduct routine measurements including moisture content, density, assay splits, and particle size analysis.
- Ensure all work follows health, safety, and environmental regulations.
- Maintain cleanliness and organization of work areas and equipment.
- Collaborate with other department and engineers to carry out testing programs.
- Participate in quality assurance and quality control (QA/QC) procedures.
- Assist in research and development projects as assigned.
- Assist in implementing quality control procedures, such as ensuring the correct use of Certified Reference Materials (CRMs), blanks, and duplicates.
- Work closely with senior laboratory staff, including Laboratory Technicians and Analysts, to ensure smooth operations.
- Participate in training sessions to develop technical laboratory skills and improve analytical techniques.
- Communicate effectively with laboratory team members to support laboratory functions.

Qualifications and Experience:

- Bachelor's Degree or Advanced Diploma in Mineral Processing, Metallurgical Engineering, Chemical Engineering, Geology, Chemistry or related field.
- Internship or academic experience in a mineral processing environment is an advantage.
- Knowledge of laboratory procedures and mineral processing principles.
- Familiarity with processing equipment such as jig, shaking table, ball mill, and flotation cell is desirable.
- Strong analytical, technical, and reporting skills.
- Proficiency in Microsoft Office (Excel, Word, etc.).

Competencies and Skills:

- Keeping attention to detail and accuracy.
- Willing to learn and take initiative.
- Good communication and teamwork skills.
- Ability to work in a physically demanding laboratory environment.
- Basic understanding of laboratory safety protocols.
