Hi Mbanza

Please see the request from Regis below. Our plant is standing due to a broken toggle plate (See attached photo). If there is such a toggle plate available at Musha and it is not being used, can you please give us approval to come fetch it and do a site transfer of this piece of equipment.

Kind regards

Calvin Whitford

Subject: Request for Toggle Plate from Musha - Jaw Crusher Breakdown

Dear Calvin,

Our jaw crusher's toggle plate broke this morning, and the damage appears beyond repair. We currently have no suitable spare in Rutongo. However, we are informed that Musha has one available which we could borrow to restore operation.

As per the agreed procedure, please extend this request to Mr. Mbanza for approval to release the toggle plate to Rutongo.

Best regards,

Regis NGENZI
