Subject: FW: Sole supplier motivation of Microsurvey subscription

Dear Missionnaire, Justin, Jaco/Calvin,

The team are using MicroSurvey within the Survey departments however, these licenses are not fully maintained, which results in limited functionality.

We have a quotation which has now expired to the value of USD7200 – discounted to USD6800 for the 4 licenses to be brought back into maintenance.

Rutongo have successfully transferred all 2D survey data in the current tunnels to the 3D space to date and Musha require the licence to move forward from using old licences they have phased out.

Justin has kindly agreed to pay for two of the four licenses with the remaining two split between Musha and Rutongo.

@GMs should you have any further queries, please call me.

Please may I request the MRMs to load PRs in 4Flow today as follows:

- Eric: USD1,800
- Thierry: USD3,600
- Sylvestre: USD1,800

[@Diogene Kubwimana](#) has kindly started a Bid Waiver document for each of you to adjust and have signed, see attached. He will also request an updated quote from the supplier in the interim

[@Jeome Sande](#) please kindly assist with any contracting requirements.

Kind Regards
Siobhan
